ZARYS

A solution for comprehensive protection and patient comfort

absoform

absorbent pad **with superabsorbent***

breathable

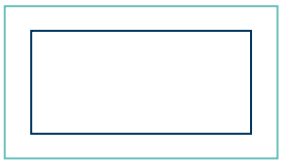
composed **of five layers***

can be sterilized with ethylene oxide

* does not apply to AFLOOP-8590

absoform

absoform basic NEW



Disposable, non-sterile medical pad **with a superabsorbent for absorbing body fluids.** Intended for healthcare facilities **for the prevention of infections and pressure ulcers.**

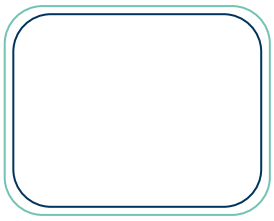
ref	size	color	Unit packaging type	unit packaging (commercial)	Shipping package (carton)
AFB-6090	60 x 90 cm	white absorbent layer, turquoise outer layer	film	5 pcs.	20 x 5 pcs.

absoform hold NEW

Non-sterile absorbent pad with superabsorbent polymer, **equipped with integrated handles** that allow the product to be used as **a stretcher for patient transport.** The elasticity of the material used facilitates maneuvering in confined spaces.

ref	size	color	Packaging type unit	unit packaging (commercial)	Shipping package (carton)
AFHOLD-80210	80 x 210 cm	white absorbent layer, turquoise outer layer	film	1 pc.	20 x 1 pc.

absoform loop NEW



A highly absorbent, **reusablepad with a lifespan of 300 wash cycles.** Used as additional protection for bedding and beds, helping to maintain proper hygiene on surfaces exposed to contamination. **Designed for bedridden patients, primarily those with urinary incontinence,** to provide protection while they sleep.

ref	size	color	Packaging type unit	unit packaging (commercial)	Shipping package (carton)
AFLOOP-8590	85 x 90 cm	Absorbent layer: light turquoise; outer layer: dark turquoise	film	1 pc.	10 x 1 pc.

absoform

Absorbent medical pad, non-sterile

Disposable pad for absorbing bodily fluids, used **for infection prevention and pressure ulcer prevention,** suitable for ethylene oxide sterilization. Five-layer, breathable structure with a superabsorbent **permanently traps potential pathogens, including MRSA and E.Coli.**

ref	size	color	Packaging type unit	unit packaging (commercial)	Shipping package (carton)
AF-6060	60 x 60 cm	white / turquoise / navy blue	film	15 pcs.	8 x 15 pcs.
AF-6090	60 x 90 cm	white / turquoise / navy blue	film	10 pcs.	8 x 10 pcs.
AF-9191	91 x 91 cm	white / turquoise / navy blue	film	10 pcs.	4 x 10 pcs.

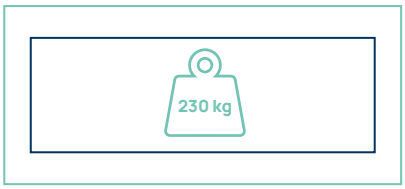
absoform

Non-sterile absorbent medical pad **for the operating table**

Disposable pad for absorbing body fluids **for the prevention of surgical site infections,** whose **sturdy construction allows for lifting and moving the patient.** The five-layer, **breathable structure with a superabsorbent material permanently traps MRSA and E.Coli**, and the entire product is suitable for ethylene oxide sterilization.

ref	size	color	Packaging type unit	unit packaging (commercial)	Shipping package (carton)
AF-80210	80 x 210 cm	white / turquoise / navy blue	film	5 pcs.	4 x 5 pcs.
AF-100225	100 x 225 cm	white / turquoise / navy blue	film	5 pcs.	4 x 5 pcs.

Overall size: **100 x 225 cm**



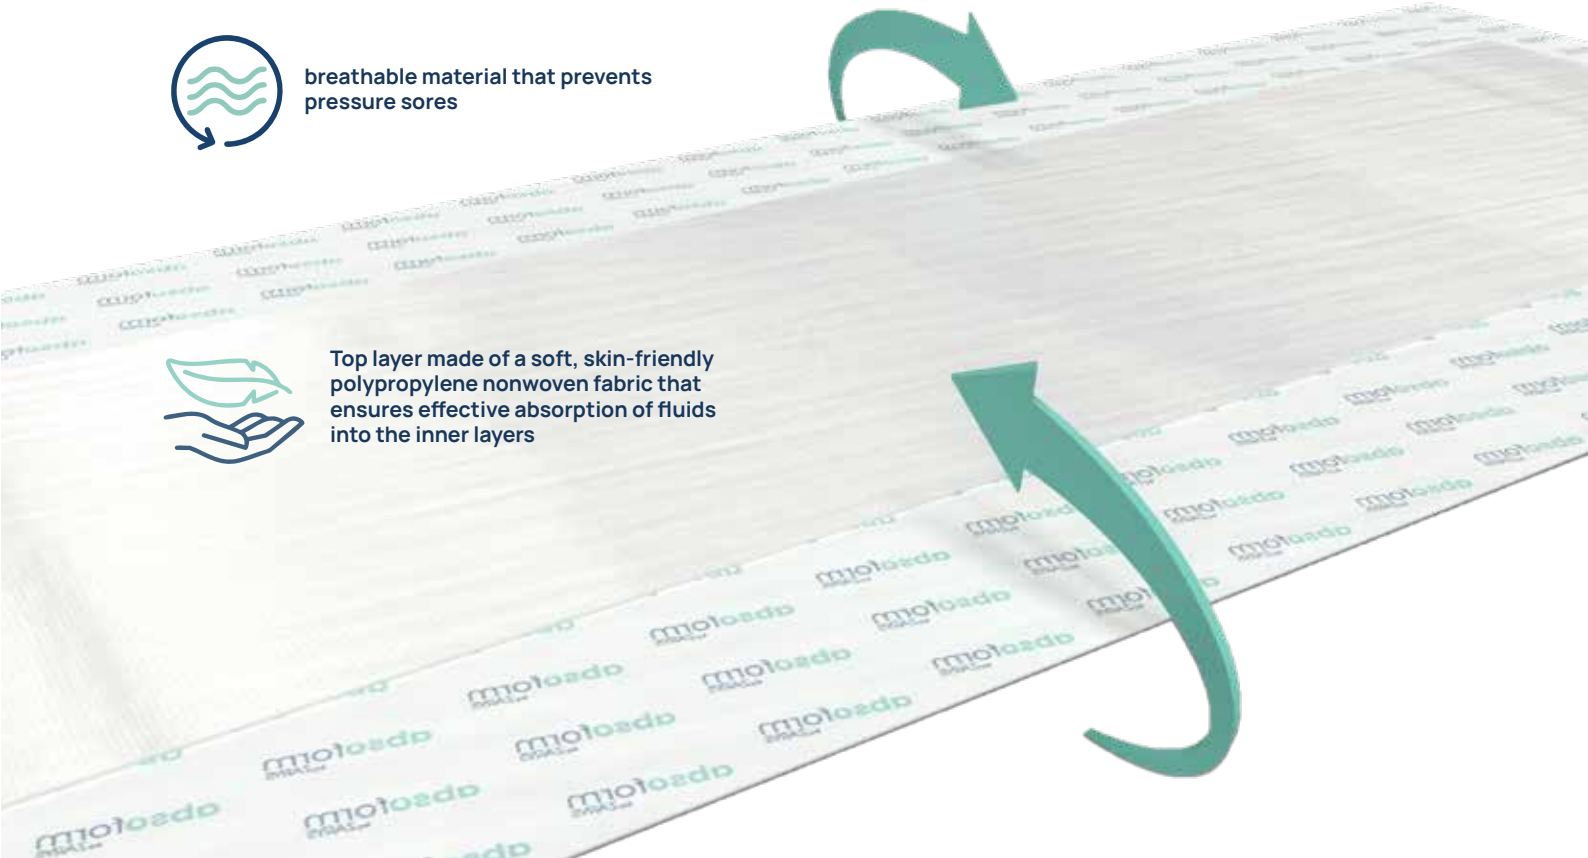
Absorbent area: **60 x 203 cm**

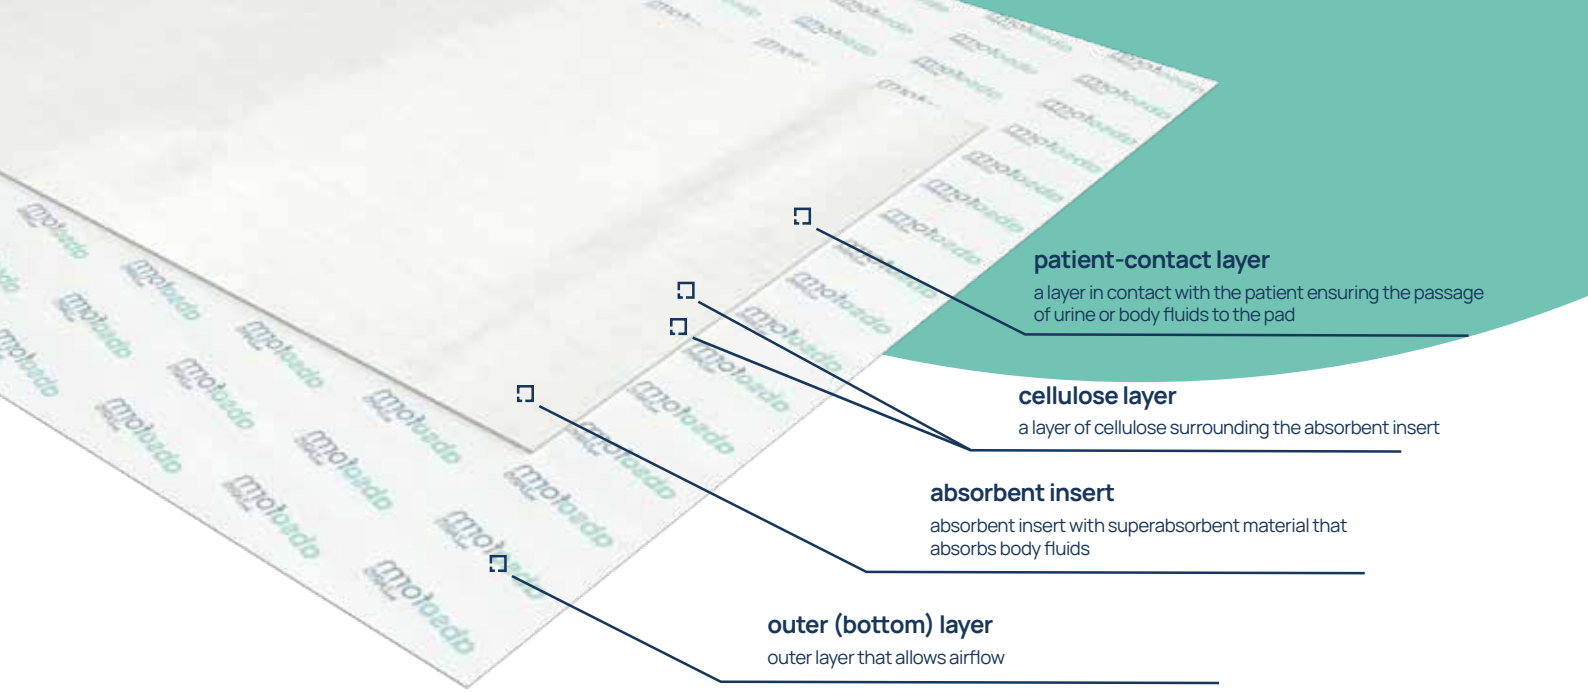
Overall size: **80 x 210 cm**

Absorbent area: **60 x 200 cm**

breathable material that prevents pressure sores

Top layer made of a soft, skin-friendly polypropylene nonwoven fabric that ensures effective absorption of fluids into the inner layers





patient-contact layer
a layer in contact with the patient ensuring the passage of urine or body fluids to the pad

cellulose layer
a layer of cellulose surrounding the absorbent insert

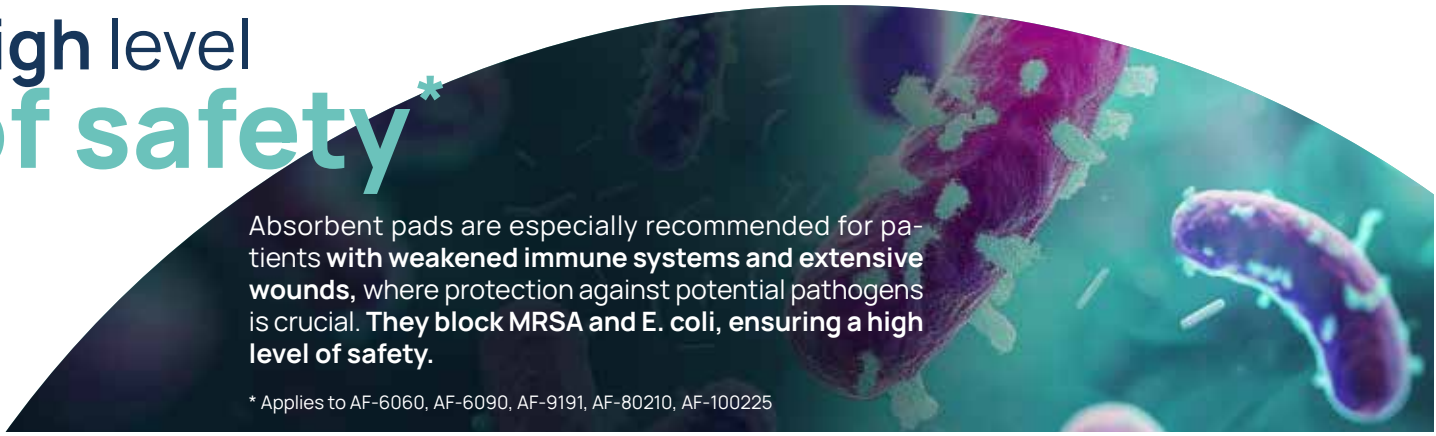
absorbent insert
absorbent insert with superabsorbent material that absorbs body fluids

outer (bottom) layer
outer layer that allows airflow

Absoform is a solution that combines **effective absorption with patient comfort.** Thanks to its five-layer construction and the use of **a superabsorbent material**, it not only effectively traps fluids and bacteria but also ensures optimal air circulation, which helps **prevent pressure sores**.

A skin-friendly surface and effective odor reduction enhance user comfort. **With a weight capacity of up to 230 kg** and the ability **to safely** transport patients, absoform is a reliable tool in everyday medical practice. **It's a combination of innovation, safety, and comfort**.

high level of safety*



Absorbent pads are especially recommended for patients **with weakened immune systems and extensive wounds,** where protection against potential pathogens is crucial. **They block MRSA and E. coli, ensuring a high level of safety.**

* Applies to AF-6060, AF-6090, AF-9191, AF-80210, AF-100225
