COMFORT. CARE.

HYGIENE

Every day of care starts with a right choice.

stila care absoform

Professional hygiene solutions for nursing homes and long-term care facilities

Older skin
requires special care

8–53%*
range of pressure ulcer prevalence rates in high-risk facilities in Europe

72%*
of all pressure ulcers affect people over the age of 65

* EWMA Fact Sheet 2019 https://ewma.org/wp-content/uploads/2024/05/Pressure_ulcers_and_patient_safety_Fact_sheet_Final_6_Nov_2019_FINAL_proofRead.pdf

With age

- regenerates more slowly
- lipid levels decrease
- loses moisture more quickly
- becomes more prone to damage
- the risk of pressure ulcers and infections increases

Daily care
is daily prevention

Properly selected care products help

- Protect the skin's natural barrier
- Reduce the risk of infection
- Make staff work more efficient
- Reduce irritation
- Improve comfort

stila care
SILVER care wet wipes

- with moisturizing vitamin E
- soothing effect thanks to allantoin in the formula
- large wipe size
- gentle cleansing and skin care
- intimate hygiene that improves comfort for people with urinary incontinence

ref
CPD1-56

silver

- no water needed
- moisturizes and soothes the skin
- adult size
- pH balanced for skin
- convenient closure that prevents moisture loss

stila care

Care products for daily cleansing and care of adult and bedridden patients' skin.

Solutions for comprehensive patient protection and comfort

Products designed for hygiene of patients and those requiring assistance with daily care. Designed for use in hospitals, care facilities and wherever conventional methods are impractical or access to water is limited.

800 W / 15–20 seconds

no water needed

pH balanced for skin

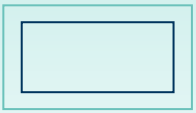
absoform

Underpads are a solution that combines effective absorption with patient comfort.

absoform basic

disposable, non-sterile medical underpad with superabsorbent



– for absorbing bodily fluids

ref	size	
AFB-6090	60 x 90 cm	MD

absoform hold

disposable, non-sterile medical underpad for patient transfer

– equipped with integrated handles that allow the product to be used as a stretcher for patient transport

ref	size	
AFHOLD-80210	80 x 210 cm	MD

absoform loop

reusable, non-sterile medical underpad for bedridden patients

– lifespan of 300 wash cycles
– used as additional protection for bedding and beds, helping to maintain proper hygiene on surfaces exposed to contamination

ref	size	
AFLOOP-8590	85 x 90 cm	MD

patient contact layer

patient contact layer that allows urine or bodily fluids to pass into the underpad

cellulose layer

cellulose layer surrounding the absorbent core

absorbent core

absorbent core with superabsorbent that absorbs bodily fluids

outer layer (bottom)

outer layer that allows air circulation

Thanks to **their five-layer construction and superabsorbent core**, absoform underpads not only effectively retain fluids and bacteria but also ensure optimal air circulation, **helping to prevent pressure ulcers.**

absoform

disposable, non-sterile underpad for absorbing bodily fluids

– used to help prevent infections and pressure ulcers

ref	size
AF-6060	60 x 60 cm
AF-6090	60 x 90 cm
AF-9191	91 x 91 cm

MD

high level of safety*

The underpads are particularly recommended for patients **with weakened immune systems or extensive wounds,** for whom protection against potential pathogens is essential. **They retain MRSA and E. coli bacteria, ensuring a high level of safety.**

* applies to AF-6060, AF-6090, AF-9191, AF-80210, AF-100225

Ensure comfort and

safety

for yourself and those in your care
